Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133).
- Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Claim Rejections - 35 USC § 102

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(a) the invention was known or used by others in this country, or patented or described in a printed publication in this or a foreign country, before the invention thereof by the applicant for a patent.

2. Claims 1 and 4 are rejected under 35 U.S.C. 102(a) as being anticipated by Toke (JP 10-302040).

Regarding claim 1, Toke discloses a method of forming an IC card. The method includes the steps of continuous feeding the mounting sheet with the IC components, continuous feeding two sheathing sheets, applying adhesive to the sheathing sheets and laminating the sheathing sheets onto both sides of the mounting sheet and hardening the adhesive. (English machine translation, Page 4, Paragraphs 41 to 45)

Regarding claim 4, Toke discloses the little pressure is applied to smooth and adjusting the distance between the sheathing sheets to remove blemish and would be considered to gradually narrow the distance. (English machine translation, Page 4, paragraph 45)

Allowable Subject Matter

3. Claims 2 and 3 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

Art Unit: 1734

4. The following is a statement of reasons for the indication of allowable subject matter: The claims recite a method of forming an IC card. The method includes the steps of continuously feeding a pair of sheet members, wherein at least one of the pair of sheet members is a release sheet, continuously feeding a mount substrate with IC components, applying adhesive to the release sheet and sheet member or release sheets, interposing the mount substrate between the sheets, pressing or rolling the sheets and substrate to the desired thickness to smooth the adhesive, removing the release sheet or sheets to expose the adhesive, and laminating coving sheets onto the expose adhesive. Toke discloses a method of forming an IC card. The method includes continuously feeding a mount substrate and molding release sheet, applying adhesive to the mount substrate, bonding the release sheet, hardening the adhesive, removing the release sheet, continuously feeding the mount substrate with the harden adhesive and two sheathing sheet, applying adhesive to the sheathing sheet, and interposing the mount substrate between the sheathing sheet, pressing or rolling the sheets and substrate together to the desired thickness and smoothing the adhesive, and hardening the adhesive. (English machine translation, Page 3, paragraphs 32-39)

Toke discloses does not disclose applying the adhesive to the release sheet and the adhesive is applied to both side of the mount substrate with the sheet member and release sheet or release sheets. A search of the prior art of record did not disclose reference or references in combination with the recited features.

Response to Arguments

5. Applicant's arguments with respect to claim 1 have been considered but are moot in view of the new ground(s) of rejection.

Conclusion

6. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the date of this final action.
